Providers of CST, IIH, and Day Treatment that are not currently certified as a CABHA, please see pages 4 through 6 in Implementation Update #79 dated September 29, 2010 on the Division of Mental Health's website. The LME will contact effected providers in writing this week to request transition plans according to guidance from Implementation Update #79.

⇒ **Clarification Regarding Community Support Team and Outpatient Therapy**

The LME has received several questions from providers seeking clarification about whether Outpatient Therapy could be provided during the same authorization period as Community Support Team (CST). We have received clarification from the State that the intent of the staffing changes for CST effective July 1, 2010 was to allow Outpatient Therapy to be a part of the functions that the CST Licensed Team Lead can provide as clinically indicated for consumers receiving this service. As a result, consumers authorized for CST should not have a separate Outpatient Therapist. While the CST definition does not indicate Outpatient Therapy as an exclusion or limitation, it is not best practice for an individual to have two (2) individual therapist at the same time as that potentially would lead to a fragmentation of services.

⇒ **Income, Family Size and National Health Care Reform:**

Please review Implementation Update 77 and the attachments. DMH is asking us to report updated information on each consumer served for the month of October. IU 77 gives definition to family size and income. When providers serve IPRS consumers from October 1 to October 31, 2010, providers should ask family size and income. Providers should fax this information to the LME MeckLink (704-319-9114). As the LME reviews claims for services in October, we will confirm that family size and income were recently updated. If necessary, we will contact providers individually to gather the updated data.

⇒ **Attention Providers who submit 837's**

The LME's claims processing software will soon check for an 837 inconsistency which has not been checked for in the past. This will cause some claims to be rejected during the processing of an 837. Please forward this information to the appropriate billing or software contacts in your organization.

The inconsistency is an 837 which contains a SV107 segment but does not include a corresponding HI\*BK segment.

The new ECP exception reason will be worded as follows "Invalid Diagnosis Code Pointers (837 SV107 segment with no corresponding HI\*BK segment)".

To avoid having claims be rejected for the above reason please be sure that your 837s always have both the HI\*BK and SV107 segment included.

Checking the 837 inconsistency will begin when we upgrade our software package which is scheduled for 10/9/2010.

⇒ **Attention: All Providers Who Use 837's and 835's - Please Consult Your Software Vendors**  
**ANSI 5010**

- **The LME and the Mecklenburg County IST Department *do not* provide technical assistance for this upgrade, so providers must contact their HIPAA transaction set vendors.**
- Providers who utilize HIPAA transaction sets such as the 837-outbound claim file, the 835-inbound remittance advice, etc. may already know that these transaction sets will be upgraded from version 4010 to version 5010 effective January 2012.
- This is a requirement at the federal level of all providers, health plans, and other entities that use such sets. Nine transaction sets in all are affected. This affects all billing for all funding streams, not just claims sent to the LME.
- With just over one year before compliance is required it is already time to make plans as it is complicated to configure, test and utilize these sets.
- Providers can start by contacting the companies from whom they have purchased their HIPAA transaction set software.
- Those companies should be well under way in their projects to upgrade their software and this may include changes in how providers record information in their own systems first.
- The LME will be contacting providers by January of 2011 to assess their plans and progress as to this important upgrade. The LME will also include providers in testing protocols by Fall 2010.

**ICD-10**

- The ICD-9 diagnosis code set will be replaced by ICD-10 by October 2013.
- The upgrade to ANSI 5010 is a prerequisite to the ICD-10 upgrade.
- ICD-10 has been implemented for several years outside the United States.
- Like the ANSI 5010 implementation, this affects all healthcare transactions for all providers, health plans, billing warehouses, etc.
- ICD-9 is over 30 years old and will run out of possible codes within the next couple of years.
- ICD-10 will expand the number of digits for codes for more specificity.

⇒ **Elements of a Functional First Responder System**

The Mecklenburg County Consumer and Family Advisory Committee (CFAC) and LME consider the following elements to constitute a Functional First Responder System (FFRS):

- The provider has a 911 prompt for medical crisis on their voicemail system.
- The provider has a prompt that provides a phone or pager number for assistance with "urgent" or "crisis" needs that cannot wait until the next business day (this number should connect to a person and not another telephone number or voicemail.)
- If crisis number contacts a pager, the message explains briefly what the caller will hear and how to respond.

**Mecklenburg Area MH/DD/SA Services**  
**PROVIDER HOT SHEET**  
**October 15, 2010**

- If the caller does not reach a live person, the voicemail message gives the caller a wait time of no more than 15 minutes to expect a return call.
- If the caller does not reach a live person, the call is returned within 15 minutes.

All providers of enhanced Medicaid services that are required to serve as First Responders should ensure that these elements are included in your First Responder System. The LME and representatives from CFAC will periodically test providers through Mock Calls to ensure compliance with these requirements.

- ⇒ **Mark your calendars: Please join us for the System of Care Open House!** This is an opportunity for providers, families, partners and community members to connect, ask questions, learn more about our System of Care, and gain valuable one-on-one time with a variety of MeckCARES representatives. Please note that the time for the event on November 17<sup>th</sup> has changed to 4:00-6:00 pm to encourage more youth, families, and community members to attend.

# MeckCARES FAQ

---

## Who is eligible for MeckCARES enrollment?

### Consumer Eligibility Criteria:

Consumers must fit all of the following criteria to be eligible for MeckCARES enrollment:

1. A youth age 10yrs -21yrs;
2. who has a DSM-IV Axis I diagnosis and is receiving enhanced mental health services;
3. and also has a functional impairment as evidenced by involvement in at least 1 of the following specialized services:
  - a) Special Education Program (placement or at risk of placement in restrictive/alternative school settings); EC Categorized, IEP plan, etc
  - b) The Juvenile Justice System (having been arrested and/or have active court cases),
  - c) Youth and Family Services/Department of Social Services (children in YFS custody);
4. Duration or expected duration of the disability of at least one year;
5. Placement outside the home or at risk of out-of-home placement

## Who is eligible for enrolling consumers and what must they do?

The consumer's clinical home *Care Coordinator* is the individual ultimately responsible for enrolling the consumer in MeckCARES. The care coordinator is responsible for submitting the complete Enrollment package to the Enrollment Coordinator, which includes the Enrollment Application, Consent Forms, and a Release of Information Form. The Care Coordinator coordinates and ensures that the Child and Family Team (CFT) meeting takes place a minimum of once a month and is operating from a framework structured according to the Systems of Care (SOC) philosophy. In recognition of the importance of family, school, and community, they utilize the "One Child One Plan" summary form to organize the CFT ensuring the fulfillment of their ultimate purpose, determining who will do what and by when, before the next CFT meeting, while addressing various life domains as it relates to specific strategies and action steps for individualized goals.

### Care Coordinator Eligibility Criteria:

1. The successful completion of both Mecklenburg County Training Institute Child and Family Team Trainings CFT101 and CFT201
2. Commitment to the submission of monthly reports to MeckCARES providing consumer status updates

## When are consumers dis-enrolled from MeckCARES and what is the process?

Consumers are dis-enrolled at completion of services, which for the purposes of MeckCARES is defined as a consumer who no longer is receiving any mental health services. *Consumers must be receiving an enhanced service in order to qualify for enrollment, but consumers who downgrade to basic benefits (i.e. outpatient services) retain their MeckCARES enrollment status regardless of a transfer to another clinical home.*

1. The identified clinical home agency (i.e. Community Support Worker, Intensive In-Home, MST Therapist, etc.) completes and forwards the dis-enrollment request form to the Enrollment Coordinator due to completion of treatment, or indicates within the monthly reports the discharge status for the consumer as completed treatment.
2. The Enrollment Coordinator is informed that there has been a lapse in services of 90 days or more.
3. A parent or guardian may also contact the Enrollment Coordinator directly to request a dis-enrollment in MeckCARES.

## What services does MeckCARES provide?

MeckCARES is not a mental health agency that provides mental health services. MeckCARES is not a division of the Department of Juvenile Justice or the Department of Social Services. MeckCARES is the name of Mecklenburg County's System of Care and is also the grant initiative program which champions the following of Systems of Care philosophy and practice for how youth and families should be delivered services. MeckCARES operates within the framework of existing services, whereby System of Care values and principles facilitate collaboration among service providers, stakeholders, and community resources/natural supports via Child and Family Teams.

## What resources are available to members of MeckCARES?

- Systems of Care Coaches (SOC Coach)
- Systems of Care Agency Liaisons
- Systems of Care Court Liaisons
- Systems of Care Dept. of Juvenile Justice Liaisons
- Systems of Care Dept. of Social Services Liaisons
- MeckCARES Community Collaborative
- Network of Informal Supports Subcommittee
- Mecklenburg County Training Institute and Committee
- MeckCARES Social Marketing Committee
- MeckCARES Outcomes and Evaluation Committee
- Service Gaps and Best Practices Committee

## 2010 DR PEPPER ACC CHAMPIONSHIP

On December 4, 2010 the ACC's Atlantic and Coastal Division Champions will play for the right to represent the ACC with an automatic bid to the Bowl Championship Series. Charlotte is ready for 2010 and we want you to help!

We've created an opportunity for your organization to get involved with this prestigious event and in turn we are committed to make a donation to your organization based on the criteria outlined below:

- Your organization will have until November 1, 2010 to sell as many Upper Level tickets to the 2010 Dr Pepper ACC Championship Game.
- Based on the number of tickets sold, Charlotte Collegiate Football will make a donation to your group.
- Charlotte Collegiate Football will reserve an upper level section called the "\_\_\_" **ZONE** where all tickets sold through your group will be located.
- Your organization will receive an LED Board and PA Announcement during the 2010 ACC Championship Game in Charlotte (minimum of 100 tickets must be sold).

### Community Outreach Program Incentives:

100 to 199 Tickets- We'll donate 10% of the ticket sales to your group

200-349 Tickets- We'll donate 15% of the ticket sales

350 to 499 Tickets- We'll donate 20% of the ticket sales

500+ tickets- We'll donate 25% of the ticket sales

500 tickets = Up to \$4,122 donated!

When the ACC football championship was awarded to Charlotte late in 2007 it signified a move to locate the game in the geographic center of the conference.

Following the first five years, the 2010 Dr Pepper ACC Football Championship Game marks the first time that the conferences premier football event will take place in the state of North Carolina.
