ITEM VIII

Powers and Duties of the Council: Within the limits of funds and personnel available, the Council:

A. Shall have and may exercise, in accordance with its Charter and Bylaws, all of the powers which the General Assembly of North Carolina has authorized, and may hereafter from time to time authorize this Charter to confer upon the Council, including, but not limited to, all of

the specific powers enumerate in Section 160A-475 (and any amendments thereto) of the General Statutes of North Carolina, which powers are incorporated herein by reference. Similarly, to the extent applicable, any powers authorized hereafter by the General Assembly of a state adjoining North Carolina may be exercised by the Council with respect to interstate activities or functions.

B. Shall have, and may exercise, in addition to and not in limitation of the foregoing, the following powers:

1. To create such committees as it deems necessary to exercise the powers granted to the Council herein in dealing with problems or problem areas that do not involve all the members of the Council. At least one delegate from each member governmental unit affected by the problem or problem area to be dealt with by the committee is entitled to be a member of that committee. Any two or more member governmental units shall have the right to have a Council committee formed to exercise the powers of the Council with reference to any problem which affects the petitioning governmental units, unless the Council shall reasonably determine that the problem or problem area in question should be assigned to an existing committee, in which case the petitioning members shall be entitled to be represented on said committee. The subject matter over which any committee has jurisdiction to exercise the powers of the Council shall be specifically defined, but may be enlarged or restricted by the Council from time to time. Unless the right of a member to representation on any particular committee granted hereinabove is asserted, the Chairman of the Council shall designate the membership of all committees.

2. To accept, receive and disburse in furtherance of the duties, purposes, powers, and functions specified in this Charter all member assessments, funds, grants, and services made available by the State of North Carolina, any other state, or any agency thereof, the Federal Government and its agencies, any municipality or county or agency thereof, the Federal Government and its agencies, any municipality or county or other governmental or quasi-governmental unit or agency (whether or not a member of such Council) and private and civic sources. The Council may provide matching funds, grants, or services, received from any source, to or for any governmental or quasi-governmental agencies established by the Council or any two or more member governmental units in furtherance of the duties, purposes, powers, and functions herein contained. None of the powers contained in this subparagraph may be exercised by any committee except with respect to funds budgeted or appropriated for their use by the Council.

3. To meet with, consult with, contract with or act in concert with any county or municipality or any agency of any state, the federal government, any civic organization, or private organization in the furtherance of the purposes and objects within its jurisdiction.

4. To participate, as a unit of local government, in any undertaking with any other unit of local government, whether or not a member of the Council, for the joint exercise of governmental powers in accordance with and pursuant to the provisions of Chapter 160A, Article 20, Part 1 of the General Statutes of North Carolina (and any amendments thereto), entitled "Interlocal Cooperation".

5. To contract with any government entity or agency, or any other person, firm or corporation for goods and/or services when same have been authorized by budget appropriations or by special resolution of the Council appropriating available funds; and to purchase and own such personal property, equipment, vehicles and furnishings as may be authorized or for which funds may be appropriated.

6. To adopt Bylaws containing such rules and regulations for the conduct of its business as it may deem necessary for the proper discharge of its duties and the performance of its functions, not inconsistent with the Charter or the laws of North Carolina.

7. To create agencies of the Council to act for and on behalf of the Council in the planning and development of particular programs which affect the health, safety, welfare, education, economic conditions or regional development of two or more member governmental units. Such agencies shall have such membership, staff, powers, duties and responsibilities as may be specified in the Council Resolutions pursuant to which such agency is established, consistent with the powers herein granted to the Council. Provided, however, such agency shall at all times be acting for and on behalf of, and shall be responsible to, the Council. The Council may appropriate funds for the use of agency programs which it has received from any source, including member assessments, provided such appropriation is made in accordance with this Charter.

8. To contract with other units of local government, as that term is defined in G.S. 160A-460, to provide for administrative, planning, procurements or other services, including administration of grants from local, state and federal agencies, in order to promote and encourage interlocal cooperation authorized under G.S. 160A-461.

ITEM IX

A. The general operating expenses of the Council shall be paid from funds paid to the Council by each member governmental unit. The annual contribution of each member governmental unit shall be based upon the duly adopted budget for such year and shall be assessed on the basis of the population for each member. For the purpose of determining the current population of each governmental unit, the Council shall use either (1) the Population Estimates for North Carolina Municipalities and Counties prepared by the United States Bureau of the Census and the North Carolina Office of State Budget and Management and published from time to time or (2) the official 10 year census figures. The current population estimates are the most recent estimates available using either (1) or (2) above, on the date the annual dues for member governments is determined by the Council.

B. All expenditures of the Council for special projects of the Council or any committee thereof or for performance of contractual services for non-member units of local government shall be made from revenues paid to the Council by the governmental units directly involved in such projects. All such revenues shall be credited to a special revenue account and all expenditures made at the completion of any project or contract. In no case shall other general fund revenues be used to pay any special project costs which do not reasonably involve or benefit the entire Council. In the event payments made by other units of local government exceed or are less than the actual cost of a special project, the excess shall be refunded to and the deficit paid by the units of local governments affected thereby.

C. The budget for the Council for each fiscal year and the assessment of each member shall be adopted by the affirmative vote of at least seventy-five percent (75%) of the representatives present at a meeting at which a quorum was present, provided notice of such vote has been given in accordance with the Bylaws, and provided further said notice is accompanied by a copy of the proposed budget and assessment.

D. The budget for the Council and the assessment for each member governmental unit shall be adopted by the Council no later than April 15th of each year. Provided, the Council shall publish and deliver to the delegates a budget estimate, indicating each member governmental unit's estimated share thereof, on or before March 31st of each year, if the actual budget shall not have been adopted by that date.

E. The budget, once adopted, may be amended by the affirmative vote of at least seventy-five percent (75%) of the representatives present at a meeting at which a quorum was present, provided notice of such vote has been given in accordance with the Bylaws, and provided, further, said notice shall state in detail the proposed terms of the amendment and the reasons therefor.

F. The annual assessment for each member governmental unit shall be payable on or before August 1st of each year and shall be delinquent thereafter. Any member of the Council which becomes delinquent in the payment of its annual assessments shall lose all rights and privileges of Council membership during such a period of delinquency. Any new member shall pay the full annual assessment for the current fiscal year regardless of its date of admission.

G. All revenues paid to the Council by member governmental units and all other sources whatsoever shall be deposited in the general fund of the Council, and separate revenue and expenditure accounts shall be maintained for each phase of operation of the Council to the extent required by sound accounting practices, to include, but not to be limited to, such accounts for the general operating expenses of the Council and each special project undertaken by the Council or any committee thereof.

H. The general operating expenses of the Council shall include, but are not necessarily limited to: providing meeting and office space or other such physical facilities needed by the

Council or any committee thereof; providing compensation for the director and other administrative personnel of the Council; providing the necessary legal and accounting or other professional services; providing furniture, equipment, vehicles and supplies, paying special consultants, temporary employees and contractors duly authorized by the Council; reimbursing authorized expenses of Council employees.

I. Unless the Council shall otherwise provided by resolution, any surplus funds in the general operating expense account at the close of any fiscal year shall be credited as additional revenue for budget purposes for the following fiscal year. All other funds shall be held and disbursed as otherwise herein provided or as directed by the contributing source.

ITEM X

Compensation and Expenses of Delegates:

A. Except for the Chairman of the Council, a delegate, and in his absence, an alternate delegate may receive, if the Bylaws so provide, up to \$40.00 for each regular or special meeting of the Council and Executive Committee attended, not to exceed \$500.00 during any fiscal year. Such Bylaws may also provide that actual travel expenses, not to exceed twenty-five cents (\$.25) per mile, may be paid to each delegate, and in his absence to one alternate delegate, for attending any meeting of the Council or any committee meeting. The Chairman of the Council shall receive \$200.00 per month as compensation for his services to the Council.

B. For travel on any authorized business of the Council, other than to attend Council or committee meetings, delegates shall be reimbursed for their actual expenses, as approved by the Council.

ITEM XI

Severability: If any Item, paragraph, sentence or phase of this Charter shall be declared by any court of competent jurisdiction to be in violation of the laws of this State or, where applicable, of the laws of any other state, such provisions of this Charter shall be considered to be severable, as to the member or members affected, and the validity of the remaining portion of the Charter shall not be affected.

ITEM XII

Amendment of Charter and Dissolution of Council:

A. The Council may formally recommend to the member governments a resolution to amend the Charter by affirmative vote of at least three-fourths of the representatives present at any meeting at which a quorum was present, provided notice of such vote has been given in

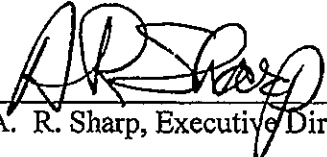

accordance with the Bylaws. Said amendment shall become effective when the resolution has been duly adopted by three-fourths of the member governmental units.

B. The Council may be dissolved at the end of any fiscal year only (1) upon adoption of a dissolution resolution by three-fourths of the governing bodies of all governmental units, or (2) the withdrawal from the Council of all but one of the member governmental units. If such dissolution is effected by resolution of the member governments, such resolution shall specify the method of liquidating the Council's assets and liabilities. If such dissolution is occasioned by withdrawal of all but one member, the remaining governmental unit shall have the power to liquidate all assets and liabilities and it shall then distribute the net proceeds, if any, to those members who paid the latest annual assessment and in the same proportion. Any deficit shall be the responsibility of those member governments who would have received the net proceeds, and in the same proportions.

ITEM XIII

Effective Date: The effective date of this Restated Charter shall be July 1, 1989, as to the current membership; and as to all subsequent members, this Chapter shall be effective on the date of its adoption by the governing body of such governmental unit or the date such member's application was approved, whichever shall be later.

THE FOREGOING CHARTER RESOLUTION (as amended) was duly adopted by all member jurisdictions and was effective July 1, 1989.

STATEWIDE INFORMATION

THE STATE ENABLING LEGISLATION UNDER WHICH COUNCILS OF GOVERNMENTS ARE ORGANIZED

160A-470. Creation of regional councils; definition of "unit of local government". - (a) Any two or more units of local government may create a regional council of governments by adopting identical concurrent resolutions to that effect in accordance with the provisions and procedures of this Part. To the extent permitted by the laws of its state, a local government in a state adjoining North Carolina may participate in regional councils of governments organized under this Part to the same extent as if it were located in this State. The concurrent resolutions creating a regional council of governments, and any amendments thereto, will be referred to in the Part as the "charter" of the regional council.

(b) For the purposes of this Part, "unit of local government" means a county, city, or consolidated city-county.

160A-471. Membership. - Each unit of local government initially adopting a concurrent resolution under G.S. 160A-470 shall become a member of the regional council. Thereafter, any local government may join the regional council by ratifying its charter and by being admitted by a majority vote of the existing members. All of the rights and privileges of membership in a regional council of governments shall be exercised on behalf of its member governments by their delegates to the council.

160A-472. Contents of charter. - The charter of a regional council of governments shall:

1. Specify the name of the council;
2. Establish the powers, duties, and functions that it may exercise and perform;
3. Establish the number of delegates to represent the member governments, fix their terms of office, provide methods for filling vacancies, and prescribe the compensation and allowances, if any, to be paid to delegates;
4. Set out the method of determining the financial support that will be given to the council by each member government;
5. Establish a method for amending the charter, and for dissolving the council and liquidating its assets and liabilities.

In addition, the charter may, but need not, contain rules and regulations for the conduct of council business and any other matters pertaining to the organization, powers, and functioning of the council that the member governments deem appropriate.

160A-473. Organization of council. - Upon creation, a regional council shall meet at a time and place agreed upon by its member governments and shall organize by electing a chairman and any other officers that the charter may specify or the delegates may deem advisable. The council shall then adopt bylaws for the conduct of its business. All meetings of the council shall be open to the public.

160A-474. Withdrawal from council. - Any member government may withdraw from a regional council at the end of any fiscal year by giving at least 60 days' written notice to each of the other members. Withdrawal of a member government shall not dissolve the council if at least two members remain.

160A-475. Specific powers of council. - The charter may confer on the regional council any of the following powers:

1. To apply for, accept, receive, and disperse funds and grants made available to it by the State of North Carolina or any agency thereof, any unit of local government (whether or not a member of the council), and any private or civic agency;
2. To employ personnel;
3. To contract with consultants;
4. To contract with the State of North Carolina, any other state, the United States of America, or any agency thereof, for services;
5. To study regional governmental problems, including matters affecting health, safety, welfare, education, recreation, economic conditions, regional planning, and regional development;
6. To promote cooperative arrangements and coordinate action among its member governments;
7. To make recommendations for review and action to its member governments and other public agencies which perform functions within the region in which its member governments are located;
8. Any other powers that are exercised or capable of exercise by its member governments and desirable for dealing with problems of mutual concern to the extent such powers are specifically delegated to it from time to time by resolution of the governing board of each of its member governments which are affected thereby.

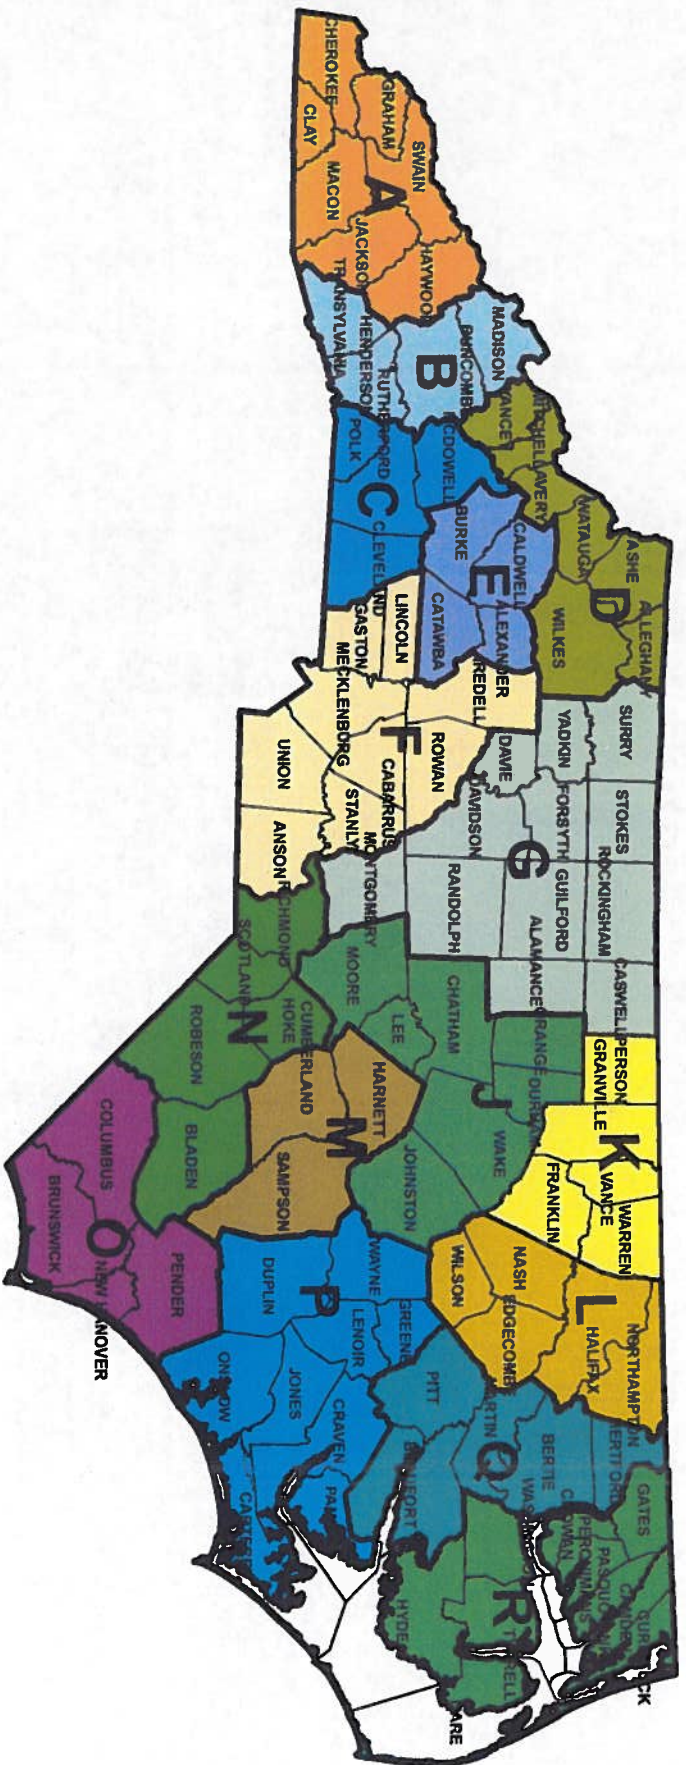

160A-476. Fiscal affairs. - Each unit of local government having membership in a regional council may appropriate funds to the council from any legally available revenues. Services of personnel, use of equipment and office space, and other services may be made available to the council by its member governments as part of their financial support.

160A-477. Reports. - Each regional council shall prepare and distribute to its member governments and to the public an annual report of its activities including a financial statement.

160A-478. Powers granted are supplementary. - The powers granted to cities and counties by this article are supplementary to any powers heretofore or hereafter granted by any other general law, local act, or city charter for the same or similar purposes.

160A-479 to 160A-484. Reserved for future codification purposes.

**COMMENTS BY
GOVERNOR BOB SCOTT**

**Announcing Executive Order Number 3
Designating Seventeen Multi-County Planning
Regions for North Carolina
May 7, 1970**

During the past several years, I have become more and more aware of the need for some type of uniform system of multi-county regions for planning and development activities of all levels of government in North Carolina.

We already have a variety of private and public planning and development organizations at town, county, multi-county, and regional levels. There are multi-county regional planning commissions and councils of governments.

The 29 counties in the Appalachian Program are divided into seven local development districts. There are three economic development districts in eastern North Carolina. Each of these districts has between six to ten counties.

We have 11 area-wide comprehensive health planning agencies and 19 comprehensive area manpower planning system areas. There are 21 local law enforcement planning units.

In addition to all of these organizations, the State has been divided over 70 different ways by State agencies for special purposes.

All of these organizations and divisions were created in response to real problems facing our towns, counties and cities. However, it should be obvious that the time has come for a more orderly approach to the organization of multi-county planning and development activities of the local, State and Federal agencies.

The provision of quality public services such as schools, health and medical facilities, libraries, highways, and police protection for all of our citizens must be coordinated at all levels of government.

The distinction between rural and urban America is becoming less and less meaningful. For years, our people have fled the rural areas in search of employment in the urban centers of the nation. Serious problems have resulted from this mass migration.

Now, with improved transportation and communication, large numbers of our people continue to live in rural areas and commute to the urban centers for employment and cultural, recreational, and entertainment activities. Thus, the trade areas of our larger cities and towns have been extended into the surrounding countryside.

We also see a trend for industry to decentralize so that, in varying degrees, our rural areas are now parts of larger economic communities. Urban centers provide many public and private services which would be extremely costly if provided in a sparsely settled rural community.

These economic communities, in almost every instance, encompass more than one county. This economic and social interdependence requires a spirit of cooperation between counties, municipalities, State and Federal governmental agencies as we prepare to meet the challenge of the year 2000.

I stated in my first legislative message to the General Assembly that only through partnership with the State can local governments provide the services our citizens demand and deserve. I also said that one of the highest priorities during my administration would be efforts to build an effective partnership between all levels of government.

Accordingly, the 1969 General Assembly passed legislation authorizing the North Carolina Department of Administration to work cooperatively with the counties, cities, towns, and Federal agencies to develop a system of multi-county planning regions.

Today, I am pleased to announce the designation of 17 multi-county planning regions for the State of North Carolina.

The good work that has been accomplished through present cooperative arrangements between counties and municipalities will not be displaced nor undermined by this uniform system of multi-county planning regions.

It is our desire to establish a framework within which individual communities can provide the needs of their residents and quicken the pace of development.

The staff of the State Planning Division under the direction of Mr. Ronald Scott in the Department of Administration has worked long and hard in studying ways to establish the regional boundaries that would take into account the interdependencies of the various counties, towns and cities.

The following factors were used in reaching a tentative decision about where boundaries should be established:

1. The economic and social interrelationships between urban centers and the surrounding areas,
2. Existing cooperative programs among counties and municipalities,
3. At least three counties in each region,
4. A population base of at least 100,000 people in each region, and
5. The existence of mountain ranges or rivers that might separate one region from another.

The establishment of the regional boundaries was not done in isolation at the State level. We have involved people from all levels of government. The Department of Local Affairs assisted the State Planning Division by holding a series of meetings across the State to explain the ideas and concepts to local officials and interested people.

A map showing tentative boundary lines was mailed to over 2,000 local government officials and other leaders interested in multi-county organizations of one form or another. We invited these officials to give us the benefit of their thinking and to express their wishes. Naturally, we were not disappointed in the number of responses that came back to us. Problem areas were identified from these comments and suggestions. Personnel in the State Planning Division resolved these problems through telephone conversations, and in many instances, personal visits with county commissioners.

Dr. William Turner, Director of Department of Administration, with my approval, appointed an advisory committee to council with the State Planning Division as they reached a final decision on boundary locations. This advisory committee, composed of representatives of the North Carolina Association of County Commissioners, the League of Municipalities, the Institute of Government, North Carolina State University, appropriate state agencies, and chaired by Dr. Leigh Hammond, North Carolina Field Director of the Coastal Plains Regional Commission, has played a key role in moderating the various points of view.

There is statutory authority for five different types of comprehensive multi-county organizations. These are:

1. Joint Planning arrangements among local planning boards
2. Regional Planning Boards
3. Economic Development Commissions
4. Planning and Economic Development Commissions
5. Council of Local Governments

It is possible that the next General Assembly will want to review the existing situation and see where additional legislation may be necessary in order for these planning regions to function effectively.

I would like to again emphasize that this system of planning regions will help achieve a goal which I have stated many times for my administration. This goal is to modernize and streamline government, particularly on a State and local level. I have said many times that State and local government must be strengthened, especially in its relation to the Federal government. We must have a stronger voice and a greater influence in the Federal system. These planning and development regions can serve a foundation for that strength.

As we move into the decade of the seventies and approach the dawn of a new century, we must have a unified effort to formulate programs that will lead to the good life for all North Carolinians.

State of North Carolina

JAMES G. MARTIN
GOVERNOR

EXECUTIVE ORDER NUMBER 25

REGIONAL POLICY FOR NORTH CAROLINA

In 1970, this State delineated boundaries for multi-county planning and development regions and in 1971 a Lead Regional Organization was designated for each region to establish goals and objectives, and serve as the regional agent in dealing with state and federal agencies. Thereafter, state agencies were instructed to utilize the Lead Regional Organization for planning, implementing, and coordinating programs which impact local governments. The concepts of multi-county planning regions and the Lead Regional Organization policy have been very effective in fostering intergovernmental coordination and cooperation and this Administration is committed to close cooperation with local governments and their agencies. Therefore, by the authority vested in me as Governor by the Constitution and laws of North Carolina, it is ORDERED:

Section 1. ORGANIZATION

- (a) A single Lead Regional Organization shall continue to exist in each of the eighteen multi-county planning development regions or such larger or smaller number of regions as may be hereinafter delineated by the Department of Administration.
- (b) The governing board of each Lead Regional Organization shall determine the organization's membership composition, but such Lead Regional Organizations are urged to limit policy board representation to elected officials of the member local governments.

Section 2. FUNCTIONS

- (a) Lead Regional Organizations, whether Councils of Governments or Economic Development Districts shall have

the same powers and duties specified for Councils of Governments in the General Statutes of North Carolina.

Section 3. ADMINISTRATION

- (a) In dividing the State for administrative and/or service delivery purposes, State agencies shall make subdivisions coterminous with the Lead Regional Organization boundary lines, or with combinations of such, unless it can be demonstrated that strict conformance would result in inefficiencies, or that the proposed subdivision bears no relationship to regional plans or activities.
- (b) State agencies desiring to eliminate, re-direct, or begin programs which impact local governments through Lead Regional Organizations are hereby directed to submit any proposed change or modification to the Local Government Advocacy Council for an advisory opinion prior to taking action. New programs involving service delivery through the Lead Regional Organizations must have the approval of local governments affected.
- (c) State financial support to Lead Regional Organizations should be limited to grants to carry out specific tasks which are imposed by State government, or tasks which involve a coordinated state-wide activity which will be beneficial to both State and local governments. State funds, if provided, shall not be utilized for general administrative support, nor shall they be utilized to supplant local funds.
- (d) The determination of personnel procedures for Lead Regional Organizations shall be left to the discretion of local governments, and no State agency shall impose its personnel procedures on the Lead Regional Organizations. Nothing in this section shall preclude the establishment of reasonable minimum education and experience standards for positions funded by a State agency, provided that such standards shall be no more stringent than those in use by State or Federal agencies for comparable positions. The Lead Regional Organizations shall have complete autonomy in filling such positions from among applicants meeting those reasonable minimum standards.

Section 4. MODIFICATION OF REGIONAL BOUNDARIES

- (a) The Secretary of the Department of Administration is hereby charged with revising and implementing, if necessary, the existing guidelines dealing with the changing of regional boundary lines, in accordance with the following:

- (b) Boundary changes shall not be considered unless a petition for change is received from one or more county boards of commissioners or from the governing bodies of one or more municipalities whose combined populations represent at least 50% of the county population. No boundary change shall be made until after notice of such proposed change is given, and sufficient opportunity for public comment is provided.
- (c) Any request for boundary change shall be acted upon within ninety (90) days of the receipt of a valid petition.
- (d) Approved boundary changes shall be effective on July 1st of the following year, and must be announced at least ninety days prior thereto.
- (e) A request for change which is not approved by the State shall not be reconsidered for a minimum period of three years from the date of disapproval.

Section 5. PRIOR ORDERS

All prior executive orders or portions of prior executive orders inconsistent herewith are hereby repealed.

This order is effective this the 21st day of February, 1986.
